

Quorum's XSELLERATOR™ Dealer and Customer Management System is specifically designed to help you meet your goals this year.

RETAIN CUSTOMERS and ENHANCE THEIR EXPERIENCE

XSELLERATOR was built from the ground up with your customers in mind. Accurate and accessible customer information across the dealership, built-in tools for relationship management and targeted promotions and advanced integration such as automatic checking for open campaigns all combine to create an environment that helps you take care of your customers.

SAVE MONEY and MANAGE CASH

XSELLERATOR has unparalleled efficiencies, management tools, and direct collaboration with GM. The system was designed with a foundation of workflow and efficiencies across departments, saving time for your staff. In addition, **XSELLERATOR has more integration with General Motors than any other dealership management system on the market.** Factory-to-dealer integration means less rework and more accuracy of information, resulting in better cash flow.

Not only do you get the most advanced and functional system, but XSELLERATOR comes at a price you can afford **NOW** - in fact, much less than you are paying today.

QUORUM IS THE #1 GM IDMS VENDOR IN NORTH AMERICA

Beyond the real, tangible advantages of XSELLERATOR, the GM IDMS program helps provide you with the latest in money-saving integration.

- **Support You Can Count On.** GM demands high levels of service and Quorum exceeds the support standards every month!
- **Contract Terms You Can Live With.** IDMS contracts feature easy month-to-month terms (no long contracts), fixed monthly support and include all future GM integration at no additional cost to you!
- **Peace of Mind.** GM backing - you contract directly with GM for the DMS.

XSELLERATOR - Simply the BEST PRODUCT at the BEST PRICE.
