

“Remarkable.”

DMS Re-Defined.

“What motivated me to visit the Quorum booth at NADA '06 was GM's recommendation and promise that IDMS integration would provide benefits for operating more efficiently. I did not go to NADA to purchase a new DMS, but after a four-hour demonstration, I was sold.

I was very pleased to find that XSELLERATOR™ is Windows based and that Quorum has a strong relationship with Microsoft®. It is so simple to flow information to Excel and Word. And the single database is a major benefit. The efficiencies are truly remarkable. I highly recommend Quorum's DMS.”
