Learning Outcomes

Students will be able to:

1. Demonstrate the ability to apply proven practices and synthesize the functional areas of the dealership business to serve customers more efficiently and completely.
2. Access, evaluate and use best practice processes and information to assist in making good informed business decisions.
3. Communicate effectively with customers through various modern communication modalities, keeping pace with customer trends in the marketplace.
4. Easily identify repetitious tasks with their business and learn how to streamline these freeing up time to address more complex items.
5. Increase employees and team competency through teaching industry best practices.

Note: Customers will be provided with an up-to-date copy of a course outline with appropriate modifications developed based on employee, dealership and business needs.

**Travel Expenses and Taxes are not included in Total Cost mentioned above*
